

## COVID Agreement to Protocols for Testing Session

For the August 2020 NE Ohio ACI Certification session, in order to comply with the State of Ohio and Federal CDC requirements, NE Ohio ACI Chapter along with BASF Beachwood facility has established new safety protocols in place for examinees and supplemental examiners to follow.

The protocols will be in place as follows for the August sessions:

- All the examinees and supplemental examiners will enter through the east parking lot door only\*. **Do not enter through the main entrance.** (\*The east parking lot can be accessed from Commerce Parkway via Chagrin Blvd or Green Road.)
- Examinees and examiners are required to fill out the health screening form, have their temperature taken & answer the questions asked of them regarding their health.
- All examinees and supplemental examiners **must wear masks, disposable gloves and the other usual PPE at all times.** They can bring their own masks if they like. External supplemental examiners must follow BASF protocols.
- All equipment used by examinees will be sterilized by the supplemental examiners with 70% isopropyl alcohol after each use, then they will put on a new pair of gloves.
- The seats in the review and exam demo theater will be cleaned & sterilized before and after the written exam review and for the written exam itself.

As an examinee for NE Ohio ACI Chapter August 2020 Certification session, I have read and understand the above protocols and guidelines in place at BASF Beachwood facility. I agree to abide by these protocols and understand that if I do not agree to these protocols, I will not be allowed entrance into the facility and asked to leave. While in the facility, if I am caught without a mask or gloves, I will be escorted out of the facility. If this occurs on the test date, the I will be escorted out of the facility and the test will be voided and will have to wait until November to register and submit payment again.
