Presentation Overview:

The ACI NE Ohio Chapter invites you to join us on **April 29, 2021** for a presentation by Mr. Benjamin Little and Mr. Steven Ostrowski. The presentation will showcase of the latest 3D scanning technology solutions from Trimble. The presentation will include a live scanning demonstration as well as a review of scanning workflows such as in-field registration, georeferencing, scan-to-model inspection, and floor analysis.

Presenters Bio

Mr. Benjamin Little - Field Technology Sales Representative, Building Point Ohio Valley. Based in Northern Ohio, serving the construction, concrete, general contractor, and MEP markets with innovative field technology solutions for build layout, BIM, and 3D scanning. Benjamin is a certified operator of Trimble Field Link layout software and robotic total stations.

Mr. Steven Ostrowski – Pre-Construction Product Manager at Trimble Buildings. Steven is an experienced Product Manager with a demonstrated history of working with many different types of measurement sensors and software in the construction industry. Skilled in 3D laser scanning, robotic total stations, augmented reality, data processing, marketing, developing business and products.

All are welcome! Please **forward this on** to anyone you think might be interested.

A **Certificate of Professional Development** will be provided for this meeting. You can **request a CPD certificate during registration**.

Please register as early as possible. Please direct any questions to Brooke Hayden (secretary@neohioaci.org).
